

Family learning curriculum plan 2026/27

Short workshops in all areas (1-2 hours) can be tailored to the needs of each setting.

Long courses in English and maths (21 or 30 hours) can be delivered alongside setting staff.

Learners can progress to another family learning course or a different Adult Learning curriculum area. The family learning curriculum links with the **English, maths, digital, employability, arts and crafts, greener** and **health and wellbeing** curricula.

Online	Key stage	Weeks	Total hours
